

# UA 598- Msc Seminar

<b>Course Code:</b>	UA-598
<b>UTAA Credit (Theoretical-Laboratory hours/week):</b>	0(0-0)
<b>ECTS Credit:</b>	12
<b>Department:</b>	Unmanned and Autonomous System Engineering
<b>Language of Instruction:</b>	English
<b>Level of Study:</b>	Graduate
<b>Offered Semester:</b>	Fall and Spring Semesters.

## Course Objectives

The goal of this course is - To advance students technical skills in preparing and giving seminars. - To let students share their latest findings on research and prepare the academic discussion environment for proper feedback receiving.

## Course Content

Various research topics in mechanical and aeronautical engineering.

## Course Learning Outcomes

- 1-Students will be able to make proposals about an academic subjects
- 2-Students will be able to make multidisciplinary research.
- 3-Students will be able to report their preparations and researches.
- 4-Students will gain experience by seeing and trying to in front of the community to share knowledge
- 5-Students will develop their written and oral communication skills.
